Peer Circles Registration is Open!

April 25, 2019

Dear Member,

In November 2018, the College launched a new voluntary Continuing Professional Development activity – Peer Circles! Peer Circles provide Registered Denturists with a rewarding opportunity to work together in small groups to discuss challenging, topical practice issues while developing problem-solving approaches and strategies.

Registered Denturists who have participated in a Peer Circle report that:

- "Everyone was encouraged to participate and facilitators ensured that those who had a contribution were given an opportunity to express it."
- "The activity encouraged an open exchange of ideas, improved clinical knowledge and allowed for learning from more experienced practitioners."
- "Excellent form of CPD."
