

2025 CPMF Report

The 2025 reporting year represents the 5-year mark since the launch of the College Performance Measurement Framework Report. There will be no CPMF reporting cycle for 2025 as the Ministry embarks on a fulsome review of the reporting tool.

The Ministry constituted a Working Group of experts, College representatives, and Ministry Staff to review and revise the CPMF reporting tool to ensure it remains relevant in strengthening accountability for Ontario's health regulatory Colleges and supports Colleges in improving their performance.

The College anticipates that a redesigned tool will be completed and launched in the Fall of 2026 and will cover calendar years 2025 and 2026.
