

Ontario Denturism Programs Textbook List

This list contains a compilation of textbooks and resources which have been shared with the College from educational institutions with Denturism programs in Ontario. The purpose of this list is solely to provide transparency to Qualifying Examination (QE) candidates regarding curriculum source materials of Ontario Denturism programs. It is a candidate’s responsibility to utilize suitable reference materials and resources in preparation for taking the QE. Candidates are expected to self-assess their learning needs and may seek out references from this list that may address their specific knowledge gaps. While the College aims to collaborate with educational institutions in Ontario to keep this list current, curriculum resources are subject to change and this list may contain discontinued resources. It is the candidate’s responsibility to source current information when preparing for the QE.

This list is **NOT** intended to serve as a study guide for the QE, nor should it be assumed that resources from this list are the source of QE questions. The content of the QE is **NOT** based on particular reference textbooks, but rather on the Competency Profile as laid out in each QE Blueprint.

Textbook Title	Edition	Author(s)	Publisher	ISBN
A Guide to Denture Fabrication: A Clinical and Laboratory Handbook	2nd			9780968143032
Aging and Society: Canadian Perspectives		Novak, M. et al.	Google Books, Nelson Education Limited	9780176562267
