CDO Joins HUB 601

Announcing Transition to New Office Location

The College of Denturists of Ontario (CDO) is delighted to announce that it will be joining HUB 601, a newly created, multi-regulator, operational work office located steps from Yonge and Bloor in vibrant downtown Toronto. The CDO's office, currently located one block east of HUB 601, will move and integrate into HUB 601 over the coming year.

Hosted by the College of Dental Hygienists of Ontario (CDHO), HUB 601 represents the realization of the opportunities of collaborative and innovative workspaces, creatively positioning its partners for the future.

"HUB 601 represents what can be accomplished when regulators work collectively for the greater public interest. I want to thank CDO Council for its leadership, vision, and due diligence on this very important and forward-thinking collaboration. I also commend the work of College Staff and our regulatory partners for this opportunity." – Ms. Lileath Claire, President

Located at 175 Bloor Street East, Suite 601, HUB 601 provides inspiring virtual and physical workspace for team-based regulatory staff from several Health Profession Regulators.

By joining HUB 601, the CDO is projected to save at least \$250,000 in leasing costs over five years.

“The HUB symbolizes the best of ideals that all regulators should strive for: collaborative, innovative, caring, and empathetic organizations. Today’s announcement represents an unprecedented leap forward in the regulatory landscape here in Ontario, where the CDO will position itself for future regulatory success – a future where health regulators continue to work hand in hand with its system partners to meet the needs of all Ontarians.” – Roderick Tom-Ying, Registrar and CEO

The inaugural collaboration includes the College of Denturists of Ontario, the College of Dietitians of Ontario and the host of HUB 601, the College of Dental Hygienists of Ontario. The collaboration is made possible because of the vision and insight of the Councils of these three organizations in consideration of the future of workspace utilization and opportunities for operational collaboration and efficiency.

There will be no service interruptions during the office transition, and all Denturists and Stakeholders will have advance notice prior to the change in mailing address. Further updates on this exciting initiative will be announced in due time. Please continue to use the College’s existing mailing address for all mail and courier deliveries until further notice:
