Speaking of surveys as a member of the Federation of Health Regulatory Colleges of Ontario, the College has been asked to distribute a request for information and input on Consent & Capacity Knowledge Assessment to all Registered Denturists. The results of the survey will be used to determine the feasibility of creating collaborative educational materials to improve understanding of the legal and professional obligations of health professionals to obtain consent and assess capacity in their respective practice settings. The survey should take approximately 10 minutes to complete. Your response is anonymous and will only be used and communicated in aggregate format. Please provide your input by April 15, 2018.
