Chief Examiner Appointed

Mr. Robert Velensky, DD selected as Chief Examiner

The College is pleased to announce that Mr. Robert Velensky, DD, has been appointed by Council to serve as the Chief Examiner for a three-year term beginning with the February 2024 examination. Mr. Velensky first served as interim Chief Examiner in 2018 and was selected by a Selection Committee to serve as Chief Examiner in 2020 for a three-year term.

The College's Registrar congratulates Mr. Robert Velensky, DD, on his appointment as Chief Examiner.

Mr. Velensky started his denturism career in 1987 and has dedicated his time and commitment in serving the CDO's Qualifying Examinations paving the way for a fair and defensible multi-jurisdictional examination that incorporates international best practices.

The College would like to thank all applicants for their participation and commitment throughout the selection process. The Selection Committee remarked that all the applicants were highly qualified and have contributed immensely to the College and looks forward to their continued participation in College activities.

A Selection Committee composed of the current chair of the qualifying examination committee, a public member of the qualifying examination committee, a senior qualifying examination assessor and both a public and professional member of Council were given the difficult task of recommending a sole candidate for Council's appointment.

At its December 8, 2023, Council meeting, Council directed College Staff to explore the creation of a Deputy Chief Examiner position for risk management and succession planning purposes. The College will explore the creation of a Deputy Chief Examiner later in 2024.
