# National Competency Profile for Registered Denturists

## Online Survey

September 11, 2019

The provincial regulatory authorities for Denturism have initiated a review and revision of the National Competency Profile for Registered Denturists. As you will be aware, competencies associated with the practice of Denturism change over time. The previous version of this document was developed and published in 2013, so it is time for a review and revision of these competencies.

This review can only be accomplished by the participation of Registered Denturists and **you are being asked to participate in an important online survey that is designed to validate essential competencies and performance indicators for denturists at entry-to-practice.** The results of this survey will be analyzed and used to create national level entry-to-practice competencies and performance indicators. These national level competencies and indicators will help standardize the quality of Denturism education across the country by informing Denturism course content. They will also assist in clarifying the requirements of Registered Denturists at entry-to-practice.

In order to obtain accurate results, we need as many Denturists and Denturist Educators to participate as possible. If you are willing to participate, please click on the following link to the survey:

<https://www.surveymonkey.com/r/Denturism>

Because this survey is one of the foundation documents for the profession of Denturism, it is detailed and long. Because of the length of the survey, you may not want to complete it all in one sitting. Accordingly, you can save your results so that when you login again you can continue from where you left off. The survey will be open from September 9<sup>th</sup> **until October 5<sup>th</sup>, 2019** so please put it in your agenda to complete before then. The more responses we get, the more accurate the result.

If you complete this survey, you are eligible to receive 4 unstructured Continuing Professional Development credits for the 2019-2020 reporting period. Some jurisdictions require a certificate of proof of completion of the survey and the option to print this certificate is provided at the end of the survey. Denturists registered with the CDO are not required to provide this proof of completion. The College trusts that those who claim those CPD credits will have done the requisite work.

Thank you again for your commitment to ensuring that the quality of care provided by members of the profession of Denturism.

## Questions?

If you have any questions, please do not hesitate to contact FICS, the administrators of this survey at [info@fics.ca](mailto:info@fics.ca).
